Andhra Pradesh, INDIA, 517297 | 8310692638 | r.jyothiprakash2003@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

B.Tech. - CSE Specialization in Data Science 2022-2025
Madanapalle Institute of Technology and Science
CGPA – 8.84

Diploma – Computer Engineering 2019-2022
Dr. Y C James Yen Government Polytechnic
Percentage – 84.95

DATA SCIENCE INTERNSHIPS

- | | |
|--------------------------|-------------------------|
| 1. The Sparks Foundation | May/2023 – June/2023 |
| 2. Code Clause | May/2023 – July/2023 |
| 3. Bharat Intern | June/2023 – July/2023 |
| 4. Sparktechno IT | July/2023 – August/2023 |

COURSES

Python for Data Science	IBM
Google Data Analytics	Coursera
Python	Hacker Rank
PowerBI	Microsoft

SKILLS

Technical Skills	Python, Java, SQL, Data Visualization, NumPy, Pandas, HTML, PHP, CSS
Soft Skills	Good at leading small teams of 4-5 people to finish projects on time.

PROJECTS

Student Attendance Management (HTML, CSS, PHP, SQL) - [GitHub](#)

Solution for tracking and managing student attendance efficiently. This web-based application ensures easy navigation and seamless integration with a relational database for effective attendance monitoring.

Internship Management (HTML, CSS, PHP, SQL) - [GitHub](#)

Facilitates seamless collection and management of students' completed documents. Admins benefit from special filtering features based on year, section, and branch, along with a convenient print option for efficient document handling.

Notes Collection (HTML, CSS, Bootstrap) - [GitHub](#)

Simplifies the organization and display of notes. Explore the GitHub repository for the code, ensuring accessibility and easy integration for efficient note management.

EDA on Diwali Sales (Python, NumPy, Pandas, Matplotlib, Seaborn) - [GitHub](#)

Exploratory Data Analysis (EDA) on Diwali sales data using Python, leveraging libraries such as NumPy, Pandas for data manipulation, and Matplotlib, Seaborn for visualizations, to gain insights into sales patterns and trends during the festive season.

Ecommerce Sales Dashboard (PowerBI) - [GitHub](#)

E-commerce sales dashboard for Q3 highlights key metrics, including total sales, geographic distribution, category breakdown, top customers, payment preferences, and sub-category insights through interactive visualizations, providing a comprehensive overview of sales performance with a focus on user-friendly exploration.
